## How to uninstall the OPSWAT Security Application
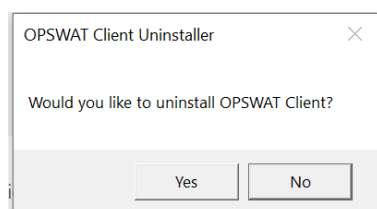

1. Right click the Start button in the bottom left, and then click "Apps and Features"

2. Scroll down through the list of applications until you see OPSWAT client, select OPSWAT client then click Uninstall

3. You may see a prompt asking do you want to make changes to this computer, click Yes/OK
4. Click "Yes" on the next prompt to uninstall OPSWAT Client

5. After a minute or so, OPSWAT Client will be uninstalled.
6. If required, you can reinstall it from https://necsu.github.io
